## 28. Stalker with Protection Links from EZserver

Stalker IPTV channel management provides channel input URLs to MAG player. This way is possible to let users know source FULL URL. EZserver provides the below way to let stalker with protection URLs:

- Add a user by MAC Address and Serila Number in EZserver User Panel. **Take care the case sensitivity of MAC ID from MAG box** with User Name of EZserver Panel.

- Login stalker portal
- Click "**IPTV channels**"
- add ezserver links as below into **IPTV Channels**
    - http://ezserver_ip:port/ChannelName
    - ex. http://192.168.0.8:8000/TV1
- add the extra code in stalker_portal-x.x.x/c/player.js
    - Find line 2435 or 2438:
        - line 2435 : this.create_link('remote_pvr', cmd, 0);
        - Add **cmd.cmd += '?u='+stb.mac+':p='+stb.serial_number;** before line 2435
    - or   (stalker V5 version)
        - line 2438: this.play_now(cmd);
        - Add **cmd += '?u='+stb.mac+':p='+stb.serial_number;** before line 2438
    - Ex 1:
        - Line 2435: **cmd.cmd += '?u='+stb.mac+':p='+stb.serial_number;**
        - Line 2436: this.create_link('remote_pvr', cmd, 0);
    - Ex 2: (stalker V5 version)
        - Line 2438: **cmd += '?u='+stb.mac+':p='+stb.serial_number;**
        - Line 2439: this.play_now(cmd);
