## 34. Active Code Mode Setting

- Set **user_authorization=2** and **active_code_no=14** in ezserver_config.txt to create 14- digital-no active code in username.
- Start EZserver.
- Click User button and "Add Multiple Users" button to create new users with random username, group and expiration days.

| User Name | Active code |
|---|---|
| **Group** | Defined in Group Management window |
| **Paid Days** | Date Format: **xxxx**. Ex. 150 means 150 days from the first watching. |
