1. Introduction

This document is for Online Player Statistics of each channel per 5 min.

Smart TV, IP STB

Mobile Devices

2. Statistic File Location and Format

EZserver logs statistic information into a file by month that is stored in **log** folder. The name syntax is *channel_active_player_log_MM_YYYY.xml*.

Each statistic file logs 5-min online players into a item that its syntax is as belwo:

```
<online_player_no time="MM/DD/YYYY hh:mm:ss">S1 ,S2,S3,...</online_player_no>.
```

ex. There are 4 channels in EZserver Panel

```
<online_player_no time="01/10/2015 10:13:00">30,100,91,8</online_player_no>
```

```
<online_player_no time="01/10/2015 10:18:00">100,89,12,9</online_player_no>
```

```
<online_player_no time="01/10/2015 10:23:00">80,11,12,80,</online_player_no>
```

It means

. CH1 has 30 online players, CH2 has 100 online players, CH3 has 91 online players and CH4 has 8 online players between 10:13:00 and 10.18:00.

. CH2 has 100 online players, CH2 has 89 online players, CH3 has 12 online players and CH4 has 9 online players between 10:18:00 and 10.23:00.
