

## 55. XBMC

Create a normal text-file with .strm extension and input the ezserver channel or video URL links as below:

`http://test:1234@192.168.0.6:8000/1.ch`

`http://test:1234@192.168.0.6:8000/ch2.m3u8`

**For example:**

Add ezserver.strm into d:\temp\ezhomotech\ezserver folder as below pictures.
